

Aluminium Foil for Food Packaging

Our aluminium foil preserves the aroma,
freshness and quality of food products,
provides reliable protection and creates a
premium packaging solution.

For chocolate, butter, cheese & more
Aroma-preserving · hygienic · premium

The Premium Packaging Solution for Food Products

Our aluminium foil – with or without paper lamination – is a proven packaging solution for chocolate, butter, cheese and other food products. It reliably protects against light, moisture and foreign odours, preserving aroma, freshness and quality. Depending on the version, the foil is suitable for direct food contact and ensures hygienic product protection.

In gold, silver and many other colours, KORFF food foil is ideal for artisanal producers and industrial food manufacturers. Custom printing and various embossing options turn the packaging into a visible mark of quality for your products.

From custom small quantities to series production – together with you, we develop the right solution for your application.

Our Foil Variants

Pop-Up Foil

Pre-cut foil sheets in a practical dispenser for catering and household use.

Aluminium Foil

Aluminium foil in roll form with various core diameters – suitable for standard packaging machines.

Pre-Cut Formats

Pre-cut aluminium foil sheets for catering, airline catering and takeaway – practical, hygienic and available in customer-specific dimensions.

Food Contact

Depending on the version, suitable for direct food contact

High Barrier Performance

Provides effective protection against moisture and oxygen

Aroma Protection

Preserves freshness, taste and quality

Premium Appearance

Elegant colours, embossing and customer-specific print designs

Technical Details and Options

Material Structures

Aluminium foil in various thicknesses without lamination. Alternatively available as a 0.007 mm version with paper lamination, optionally with 23 g/m² or 35 g/m² paper.

Flexible Packaging Solutions

Whether as pre-cut sheets, rolls or pop-up foil – we manufacture precisely to suit your application. Customer-specific widths, formats, roll lengths and core diameters can be realised depending on the version. **Small quantities are also possible.**

Finish

Smooth or embossed: damask, fine grain or diamond.

Printing

Custom printing with colours, logos or text, in up to 3 colours.

Special Production

We manufacture special dimensions and individual versions according to your requirements.
